Re: Cline Butte Utility Company
Facility # 107204 / Permit # 101293
Deschutes County

Dear Mr. McDaniel,

I am the permit writer and compliance inspector for the Cline Butte Utility Company. Cline Butte Utility Company has a Water Pollution Control Facilities (WPCF) Permit for the treatment and disposal of wastewater generated by Eagle Crest Resort in Deschutes County. The wastewater is treated in a 0.230 million gallon per day membrane bioreactor system then disinfected, stored, and used for irrigation during the growing season.

To my knowledge, Cline Butte Utility Company is in full compliance with their WPCF permit, which was issued in accordance with state and federal regulations. If you have any questions or would like to discuss this matter further, please don't hesitate to contact me at (541) 633-2024 or via e-mail at bower.karen@deq.state.or.us.

Sincerely,

Karen Bower, PE
Environmental Engineer
Eastern Region-Bend

Enclosure: Copy of Cline Butte Utility Company WPCF Permit
